PET LOSS SUPPORT

For Children and their Families

When your child's pet dies, you may wonder what to say, what to do ...

You want to support your child, and yet you may have many questions: What should we say? Should we get another pet? Is it "normal" for my child to be this sad? There are no simple answers, and there is no "right" way to grieve. Grief is natural. Still, it is healthy for children to honor their grief and to be supported with honesty and compassion.

Sanctuary Counseling is here to help facilitate your family's grieving process and to support you during this important and sensitive time.

The death of a beloved pet is likely to be your child's first experience of loss... we're here to help you find support.
